

PMP® Exam Prep Classroom Course Fact Sheet

PMI's Project Management Professional (PMP®) credential is the most important, industry-recognized certification for project managers. Globally recognized and demanded, the PMP® credential demonstrates that you have the experience, education and competency to successfully lead and direct projects.

For **corporate customers** there is a special **Blended Program** that saves **50% employee away time**. More information on the Blended Program can be requested from your Velocity Knowledge Contact Person.

The Velocity Knowledge 35-hour, eLearning PMP® Exam Preparation Course provides a high quality training program that prepares candidates to both pass the PMP® exam, as well as learn to apply the PMBOK® in real life.

PMP® candidates are encouraged to enhance their learning experience by completing Sharkworld. This online, interactive project management simulation puts participants in the role of a project manager for a fictional company. You are challenged with the task to build the largest "shark aquarium" in the world. Faced with sharp deadlines and performance expectations, you have to manage the project by planning, negotiating and communicating with all of the stakeholders involved.

Sharkworld received the following awards:

Japan Prize 2009
1st Prize Continuing Education Category

Accenture Award 2009
Best Gaming Concept

European Innovative Games Award 2008
1st Prize

Dutch Game Award 2008
1st Prize Best Serious Game

Certificate: PMP®
Duration: 4-Days, 35 hours
Course Delivery: Classroom, Virtual Classroom, Blended (combined with Classroom)

Course ID: PPM3210CL
Language: English
Credits: 35 PDU, 35 CPEs

Course Description:

This Classroom course is aimed at people who work, or would like to work, on projects on a daily basis and would like to achieve the PMP® Certification. More specifically, this course is for project managers who want to master the Project Management Body Of Knowledge (PMBOK®) and improve their skills in managing projects.

The Velocity Knowledge approach to project management education is application driven. You will be immersed in project management through use of a comprehensive case study, exercises, examples and war stories. At the end of this program, you will be able to pass the exam and at the same time know how to use PMBOK® in practice as a project management professional.

This program contains 14 highly interactive, and modular course units. The course is enriched with engaging questions from real-life project situations. Through a series of sample-exam questions you will be optimally prepared to take and pass the exam.

Audience:

- Those considering adopting the PMI Project Management Body of Knowledge
- Project managers
- Project team managers and leaders
- Project coordinators
- Project support staff
- Project assurance staff
- Project officers
- Consultants and contractors

Prerequisites:

There are no formal prerequisites for participating in the PMP® Exam Preparation course, however, there are specific prerequisites prior to scheduling the PMP® exam.

Course preparation:

Learners need to do a pre-course assessment of 40 sample exam questions before starting with the Classroom. You will receive online access to the pre-course assessment and are expected to have finished the 40 questions when coming to class the first day.

Eligibility requirements for registering for the PMP® exam:

Educational background	Project Management Experience	Project Management Education
Secondary degree (High School)	Minimum of five years/60 months of unique, non-overlapping professional management experience during which at least 7,500 hours were spent leading and directing project tasks	35 hours of formal education
Four-year degree (Bachelor's)	Minimum three years/36 months unique, non-overlapping professional project management experience during which at least 4,500 hours were spent leading and directing project tasks	35 hours of formal education

Learning Objectives:

At the end of this course, you will:

- Be able to pass the PMP® Exam become a certified project management professional (PMP®)
- Gain the skills and knowledge of project management based on the PMBOK® Guide and real-life project management practices
- Know how to use the tools and techniques you learned while studying for the PMP® exam

- Apply project management techniques useful in the real world
- Share a common lexicon of project management terms and principles

Why Select an Velocity Knowledge PMP® Exam Preparation Training Course:

- Velocity Knowledge provides you with comprehensive training materials and a unique learning experience. Your Classroom program includes everything you need to pass the exam.
- This course provides 14 modules that can be taken at any time and at your own pace. The modules are well-rounded blocks of information, making the learning experience smooth and easy.

About the Examination:

- The PMP® examination is comprised of 200 multiple-choice questions. Of the 200 questions, 25 are considered pretest questions. Pretest questions do not affect the score and are used in examinations as an effective and legitimate way to test the validity of future examination questions. All pretest questions are unmarked and randomly placed throughout the examination. The 200 questions cover the vast body of project management terms, concepts, principles, and application.
- The time allotted to complete the exam is four hours, the exam is computer based. Pass/Fail results are provided at the conclusion of the exam.
- There are no scheduled breaks during the exam, although candidates are allowed to take a break(s), if needed; however, during the break the clock continues to count down.
- Enrolling and paying for exams is done through PMI. Training companies are not able to sell exam vouchers. For more information, download the PMP® Exam FAQ document or review the [PMI PMP® handbook](#).

More Information

To find more detailed information on the PMP® Exam and the application process, please review the PMI PMP® Handbook.

Other Courses of Interest:

- The Certified ScrumMaster course enables learners to become accomplished Scrum Team Members and to successfully implement Scrum Projects in organizations.
- The PRINCE2 Foundation course prepares candidates to take and pass the PRINCE2 Foundation exam.
- The ITIL Foundation course focuses on providing knowledge and comprehension of the key concepts, structure, terminology, and processes of ITIL. This course will help you master ITIL at the Foundation level and prepare you for the ITIL Foundation Exam.
