

## **CISM Exam Boot Camp**

3 Days Classroom Session | 4 Days Live Online Save to Plan

### **Overview**

Designed to be the most clear cut path to obtaining the prestigious CISM certification; this three-day Tactical Security CISM Exam Preparation course offers a comprehensive review of the ISACA CISM topic areas without a lot of "off topic" discussions.

### **Not just CISM test prep – We build real-world security management skills.**

The course specifically covers the task statements and knowledge statements contained within the four major content areas of CISM including:

- Information Security Governance (24%)
- Information Risk Management and Compliance (33%)
- Information Security Program Development and Management (25%)
- Information Security Incident Management (18%)
- 

After completion of this preparation course, you will be ready to take the internationally-acclaimed CISM certification exam. When it comes to information security, a single differentiator can be all that stands between a multimillion dollar contract or a promotion. ISACA's Certified Information Security Manager (CISM) certification is that differentiator. CISM is recognized around the world as the leading certification for enterprise security management. CISM certified individuals are part of an elite group of professionals who have demonstrated a mastery of the concepts and skills of information security, have the experience to back up the knowledge and are dedicated to continually learning and staying current within the information security field.
